Melanie and Weslee, Thanks for the voicemail. Yes, let's talk. Today is busy. Can we talk on Mon 6/11/18 at 9 am, 10 am, or 11 am? If not Monday, Tues at 1 pm or 2 pm? I will give you a call in number once we pick a time/date. Expect it will be relatively quick, half hour should cut it. Thanks

Lecelle, Thanks again.

Not sure you are aware of the attached summary we provided last year. The attached reflects our preference for the Initial Notification process. Could we schedule a quick call or have an email exchange on the 2017 and 2018 exceedances in the El Paso area. I am not aware of the any of the details of the 2018 exceedance. We would like to have some early clarity on potential regulatory significance and causes of the exceedances. Thanks

Subject: PM10 Exceedances at Socorro Hueco (AQS: 48-141-0057) (El Paso)

Good Morning Dot,

As a follow-up to our conversation yesterday, we have confirmed that TCEQ is in the process of putting together the initial exceptional event notification that will be submitted to EPA for the PM10 exceedances at Socorro Hueco on 4/25/2017 and 5/2/2018.

Best regards,

Lecelle Clarke
